STATE AND NATIONAL DEVELOPMENTS AND RESOURCES

Dome magazine editorial applauds career of Dohn Hoyle

Dome magazine recently carried an editorial underscoring the decades of advocacy and leadership that Dohn Hoyle has provided in his current role as the Director of Policy and while the Executive Director for Arc Michigan. Dohn is MACMHB's strongest advocacy allies. An excerpt from that editorial is found below as well as a link to the full editorial.

A Warrior for Human Rights: Dohn Hoyle

There are few issues under the Capitol Dome impacting persons with intellectual and developmental disabilities that have not been influenced by the passion, drive, and commitment of Dohn Hoyle. For decades, Hoyle, the long-serving, now semi-retired Executive Director of The Arc of Michigan, has been in the thick of the fight to assure persons with disabilities have the same rights as all Americans.

The full editorial can be found at: <http://domemagazine.com/tomwatkins/tw100617>

CHCS announces webinars on trauma informed care

The Center for Health Care Strategies (CHCS) recently announced a set of webinars on trauma informed care. The description of those webinars is provided below.

Advancing Trauma-Informed Care in Policy and Practice: Health care policymakers and practitioners across the country increasingly recognize the destructive effects of trauma on the health of children and adults. Under *Advancing Trauma-Informed Care* (ATC), a national CHCS-led initiative made possible through the Robert Wood Johnson Foundation, leading champions of trauma-informed care are exploring how these approaches can be practically implemented across the health care sector.

Implementing Trauma-Informed Care in Pediatric and Adult Primary Care Settings - October 16 webinar highlighting strategies for implementing trauma-informed care in both pediatric and adult primary care settings.

Get more information and register at:

National Council announces Facebook Live events around opioid crisis

Below is a recent announcement from the National Council for Behavioral Health (of which MACMHB is a member) regarding a Facebook Live event on the nation's opioid epidemic.

Every day at least 115 Americans die from opioid use, and the rates of substance use disorder related deaths are continuously on the rise in the United States. Properly addressing this growing crisis starts with understanding the nature of addiction, and the prevention, treatment and recovery opportunities available.

Throughout the month of October, join the National Council for a first of its kind Facebook Live event on the opioid epidemic and its contributing factors. We will kick off with exclusive interviews between Tom Hill, Vice President of Addiction and Recovery, and Nick Szubiak, Director of Clinical Excellence in Addiction, from the National Council. Connect with us to discuss treatment styles, recovery systems, and the dynamics of addiction to further understand the depths of our current SUD crisis.

- October 13th at 12:30pm ET: What do people mean when you hear the word recovery capital and recovery management?
- October 19th at 2:30pm ET What are some of the contributing factors that can lead to a person developing an addiction?

Visit the National Council's Facebook Page (<https://www.facebook.com/TheNationalCouncil/>)

to join the Facebook Live event – A link will be posted prior to the event beginning.

AHRQ integrated care academy issues report on opioid treatment in rural communities

The AHRQ Academy for Integrating Behavioral Health and Primary Care, Implementing Medication-Assisted Treatment for Opioid Use Disorder in Rural Primary Care: Environmental Scan has just been released and posted to the Academy portal today.

The two-volume report examines factors that may limit access to medication-assisted treatment (MAT) for opioid use disorder (OUD) in rural primary care settings. Three innovative models of care, including the Vermont Hub and Spoke model, Project ECHO (Extension for Community Health Care Outcomes) from New Mexico, and the Office-Based Opioid Treatment with Buprenorphine (OBOT-B) Collaborative Care Model from Massachusetts, may help overcome a number of the challenges faced when implementing MAT services in rural primary care. Peer-reviewed articles and grey literature on implementing MAT for OUD were examined. The second volume of the report includes links and descriptions to nearly 250 tools and resources to support the delivery of MAT in rural primary care settings.

The report can be found at:

<https://integrationacademy.ahrq.gov/implementing-medication-assisted-treatment-opioid-use-disorder-rural-primary-care-environmental-scan>

Open Minds announces population health webinar

A Step-by-Step Guide to Population Health Management: Open Minds and Relias recently announced that Carol Clayton, Translational Neuroscientist at Relias, and Tammy Floyd, Healthcare Home Director for North Central Missouri Mental Health, will be part of a webinar that provides an effective step-by-step guide on how to successfully take on population health management within provider organizations.

In this webinar, you will learn:

- A framework for population health management – objectives, functionality, technology, and training
- Strategies for selecting and reporting on performance measures
- Examples of success using these methods

For more information on the webinars and to register for them, go to:

2017 PAC Campaign Update

Earlier this year we announced our 2017 CMH PAC campaign with the goal of increasing member participation. This year's campaign exceeded last year's contribution levels, but participation remained about the same. Last month we held the drawing for the Detroit Tiger box suite tickets donated by Muchmore Harrington Smalley Associates and the winner was... Lapeer CMH.

Congratulations to Lapeer CMH and thank you to all who generously contributed to the CMH PAC.

Just because the Tiger drawing has been completed does not stop the need for CMH PAC support. If you would still like to support our PAC efforts please mail your contribution to our office, below are the details:

Make checks payable to: CMH PAC ~ 426. S. Walnut St. ~ Lansing, MI 48933 (no corporate checks, please)

Thank you. Please feel free to contact Bob or Alan with any questions.

MACMHB ANNUAL FALL CONFERENCE

MACMHB's Fall Conference, "Honor The Past...Treasure The Present...Dream the Future," takes place on October 23 & 24, 2017 at the Grand Traverse Resort in Traverse City, Michigan. The conference will feature 4 powerful keynote speakers, 34 workshops, exhibitors and networking opportunities.

Lynda Zeller is deputy director for the Behavioral Health and Developmental Disabilities at the Michigan Department of Health and Human Services. This position provides policy leadership for public behavioral health and developmental disabilities services, and exercises executive and administrative direction and oversight for operations through the Bureau of Community Based Services, Bureau of Hospitals and Administrative Operations, and the Children and Adults with Autism Spectrum Disorders Section. Zeller has more than 27 years of experience in the field of behavioral health, serving seriously mentally ill adults, seriously emotionally disturbed children, persons with developmental disabilities and those with substance use disorders. She has served in executive positions with various health care and non-profit agencies. Most recently, she served as the Health Services administrator for the Michigan Department of Corrections, which included all health, behavioral health and dental services for the state's correctional system.

Nick Lyon brings a wealth of policy, budget, and department operations expertise to his role as director of the Michigan Department of Health and Human Services (MDHHS). Lyon was named to the position effective April 10, 2015 by Gov. Rick Snyder when he created the new agency in February of 2015 by Executive Order. MDHHS is a merger of the former Michigan Departments of Human Services (DHS) and Community Health (MDCH). Previously, Lyon had served as MDCH director beginning in September 2014, when Gov. Snyder selected him to succeed James K. Haveman. The governor also appointed Lyon as interim DHS director to succeed Maura Corrigan, who retired Dec. 31, 2014. Prior to becoming MDCH director, Lyon served as the agency's chief deputy director beginning in 2011. In this role, he upheld the mission of the MDCH by overseeing the day-to-day operations of all of the department's administrations including Medical Services, which oversees the Michigan Medicaid program; Public Health; Behavioral Health and Developmental Disabilities; Policy and Planning; and Operations. Lyon brings leadership experience overseeing daily departmental operations, as well as representing the department with various stakeholders, the Michigan legislature, and community partners to his role as Director. He also oversees the department's interactions with the Office of Recipient Rights, the Michigan Developmental Disabilities Council, the Health and Human Service Office of Inspector General, the Autism Council, the State Child Abuse and Neglect Prevention Board, and the Human Trafficking Health Advisory Board. Lyon is a 1990 graduate of Yale University where he earned a Bachelor of Arts degree in Economics and Political Science.

Jay Rosen was one of three founders of HMA in 1985 and today, as HMA president, continues to directly engage in shaping the strategic vision for the firm, leading its growth, serving clients and inspiring innovation across the spectrum of publicly funded health care programs. An industry thought leader and change agent for more than 30 years, Jay is a nationally recognized expert in health policy, health economics and health finance. He directs a variety of major projects for public and private sector clients. He is uniquely adept at spotting health care trends and translating his insights into patient-centered solutions that also make good business sense. Prior to launching HMA, Jay served for many years as the director of planning and policy development for the Michigan Office of Health and Medical Affairs. Jay supervised health policy research and analysis and is credited with pioneering new approaches to hospital capacity reduction, certificate of need, physician supply planning and medical school enrollment. Jay also founded and is managing director of HMA Capital Partners, a private equity firm that invests in early stage health care companies with business prospects centering around publicly financed health care programs.

Alyson Beytien is a popular speaker, trainer and mother of 3 sons with autism. She does training and consulting throughout the U.S. and Canada. Alyson is a Board Certified Behavior Analyst (BCBA) and has a Masters degree in Autism Spectrum Disorders from the University of Kansas. Alyson is a Behavior Analyst for Hills and Dales in Dubuque, IA where she is involved in diagnosis, assessment, intervention and training. She is the author of "Autism Everyday" which received the 2012 Literary Work of the Year from the Autism Society of America. Alyson is cheerfully addicted to Diet Coke, loves to quilt and read, and is trying to learn the meaning of the word "relax."

LEGISLATIVE UPDATE

Opioid Deaths in MI More Than Doubled in 5 Years

The number of opioid deaths in Michigan rose from 622 in 2011 to 1,689 in 2016, according to statistics released today by Chief Medical Officer Eden Wells to the House Health and Human Services Appropriations Subcommittee.

In quantifying what she described as easily being an epidemic as defined by the Centers of Disease Control (CDC), Wells and Dr. Debra Pinals, the state's medical director for behavior health, outlined the following:

- Opioid prescriptions have increased from 10,441,714 in 2011 to 11,028,495 in 2016
- Neonatal abstinence syndrome cases have gone from 630 to 927 in 2015
- People in substance use disorder treatment for opioids and heroin when from 22,234 to 32,473
- Drug poisoning deaths by opioids went from about 20 percent in 1999 to 72 percent in 2016.

The announcement of the statistics came hours after the House Health Policy Committee moved to the full House legislation designed to curb the opioid epidemic.

SB 0166 and SB 0167 make sure doctors who prescribe Schedule 2 through Schedule 5 controlled substances consult the Michigan Automated Prescription System, or MAPS, prior to doing so.

Also moving to the House floor is SB 0047, SB 0270, SB 0273 and SB 0274, which limit the amount of opioids that can be prescribed for pain, require patients be given information on opioids and limit the prescriptions of opioids to doctors and patients with a "bona fide" relationship.

NATIONAL UPDATE

Congress to Maintain Focus on Transforming Medicaid in FY2018

The new budget rules proposed in the House and Senate make clear that Congress will remain focused on passing sweeping, fundamental changes to the American health care system and Medicaid in FY2018. Though the narrative currently centers on tax reform, it is widely believed that if passed, immense cuts to Medicaid could help finance the

Trump Administration's tax reform plan. For mental health and addiction advocates, FY2018 is another year for advocacy, engagement and education.

The House-approved budget would call for a number of reforms and cuts that would be harmful to Americans and leave lasting, damaging effects to the social safety net population including trillions of dollars in cuts to Medicaid, Medicare, and other health programs. It also calls for the passage of the harmful American Health Care Act which passed the House earlier this year but failed in the Senate.

To go into effect, the same budget resolution must be approved by both the House and Senate. The Senate is expected to vote on and approve its budget framework for FY2018 this week; the current draft differs significantly from the House-passed version and will likely result in a conference committee to reconcile the two bills.

MACMHB committee schedules, membership, minutes, and information go to our website at <https://www.macmhb.org/committees>

A REMINDER TO VOTING DELEGATES, EXECUTIVE BOARD MEMBERS, AND CMH AND PIHP BOARD CHAIRPERSONS: NEW SCHEDULE FOR ASSOCIATION MEETINGS AT FALL CONFERENCE

Starting at this past Spring's Association conference, THE ASSOCIATION'S MEMBER ASSEMBLY, BOARD CHAIRPERSONS ROUNDTABLE, AND EXECUTIVE BOARD MEETINGS ARE BEING HELD AT DIFFERENT TIMES AND DATES THAN IN PAST YEARS. These meetings, at the upcoming Fall Association Conference, and at every spring and fall Association conference in the future, will be held at the following new day (the day before each conference in the spring and fall) and new times:

Sunday, October 22, 2017

2:00pm – 6:15pm:

Earlybird Registration for MACMHB Fall Conference (so that those participating in the Board Chairperson's Roundtable, Executive Board and Member Assembly can register prior to those meetings, if they find this helpful)

3:00pm – 3:40pm

CMH/PIHP Board Chairperson Roundtable & Networking

4:00pm – 5:30pm

Executive Board Meeting

5:40pm – 6:15pm

Member Assembly Meeting

Have a Great Weekend!
