

LOCUS Case Coaching & Training Enhancement

This course is designed to help further develop current LOCUS trainer's skills and understanding by the use of lecture, additional case vignettes, Q & A, group discussion and logistics. This training will help provide consultation and coaching for practitioners who have already completed the LOCUS TNT course for sustainability of Fidelity. Attendees will review goals to be accomplished through LOCUS training and identify training techniques and obstacles that will help develop clinical examples relevant to the Dimensional Criteria. This will help establish coping techniques to use with difficult participants. This training will also help to recognize the strengths and weaknesses of each level of care that will help create consistency.
